

Mouse anti His Tag (McAb)

Product Number: ATB5806

Shipping and Storage

2-8 °C can be stored for a short period of time, and -20 °C can be packaged for long-term storage.

Description

Efficient purification of mouse anti His monoclonal antibody from mouse anti His ascites; Its immunogen is purified 6 × His KLH.

Application

Can be used for scientific research experiments such as IHC, IP, IF, WB, etc.

Specifications

1. Status: Liquid, no denatured sediment.
2. Biological source: BALB/c mice
3. Clone number: 4D2F
4. Subtype: IgG1
5. Concentration: $\geq 2.0\text{mg/mL}$
6. Buffer solution: 0.01M PBS (0.14M NaCl)
7. Activity: ELISA competitive inhibition; 2×10^5
8. Purity: $>95\%$ (SDS-PAGE)
9. Preservatives: No preservatives added
10. Validity period: 3 years.

Note

After receiving the raw materials, customers should promptly package them for use or storage to avoid repeated freezing and thawing.
