Chicken hemoglobin

Product Number: BC015

Shipping and Storage

Store at 2-8°C; avoid freezing.

Component

Component	BC015-5mg	BC015-10mg
Chicken hemoglobin (Powder)	5mg	10mg

Description

Healthy roosters in a closed system undergo sterile blood collection and are scientifically prepared with the necessary anticoagulants added. There are no bacteria, fungi, mycoplasma, or mycoplasma, and no preservatives or antibiotics are added. The main components of chicken hemoglobin are globin and heme, with the globin portion being a tetramer composed of two different pairs of globin chains (α and β).

Application

For biochemical research.

Note

1. If this product is not used in a short period of time, it should be stored in a cool and shaded place (2-8℃ storage) away from light
2. All products of our company are only used for medical purposes such as scientific research or industrial applications, and cannot be used for clinical diagnosis or treatment of humans or animals. They are not medicinal or edible.
3. For your safety and health, please wear lab coats and disposable gloves when operating.
