

Polyethylene nanoplastic (PE-NPS)

Product Number: PE-NPS884

Shipping and Storage

Lightproof and sealed, store at room temperature (4°C) for long-term preservation; avoid freezing, validity period: 12 months.

Component

Component	PE-NPS884
Polyethylene nanoplastic (PE-NPS)	10mL

Specification

1. Granularity: 100nm
2. Concentration: 25mg/mL
3. Uniformity: <3.0%

Surface functional groups

Naked sphere, amino group, carboxyl group, hydroxyl group, thiol group, streptavidin, biotin, etc.

Form

Liquid and solid powders.

Preparation method

Template method (PE content 70%).

Solid content

2.5% support customization.
