

Rabbit Anti-llama IgG (Heavy Chain) antibody

Product Number: RTL18

Shipping and Storage

2-8 °C can be stored for a short period of time, and -20 °C packaging can be stored for a long time.

Description

Appearance	Liquid, non denaturing precipitate.
Concentration	≥5.0mg/ml
Source	Rabbit antisera
Antibody subtype	IgG
Valence	>1×5000
Molecular weight	150KD
Purity	>85%(SDS-PAGE)
Preservatives	No preservatives added
Validity period:	3years

Application

1. Efficient purification of rabbit anti alpaca IgG antibodies from rabbit anti alpaca serum using immunoaffinity chromatography.
2. Can be used for scientific research experiments such as WB, IHC, ELISA, GICA, etc.

Storage buffer

0.01M phosphate

Note

After receiving the raw materials, customers should promptly package or store them to avoid repeated freeze-thaw cycles.
