

HRP-conjugated goat anti-rabbit IgG

Product Number: S080236

Shipping and Storage

Store at -20°C with a 12 month shelf life.

Component

Component	S080236
HRP-conjugated goat anti-rabbit IgG	100μL

Description

Horseradish peroxidase labeled goat anti rabbit IgG (H+L) was used for Western blotting, ELISA, and IHC experiments. HRP, Horseradish Peroxidase can catalyze ECL reagents to produce chemiluminescence in Western detection, TMB to produce blue in ELISA, and DAB to produce brown precipitate in IHC or Western blot detection.

Suggested dilution ratio

ELISA	1:5000-1:10000
WB	1:10000-1:20000
IHC	1:500-1:5000

Note

1. Please adjust the specific dilution ratio according to the experimental results. Try to minimize repeated freeze-thaw cycles.
2. For your safety and health, please wear lab coats and disposable gloves when operating.
